a textbook of medical jurisprudence and toxicology sixth edition discusses medico legal points concerning the different causes of death examination of evidence and crimes that merit medical attention and advice the author reviews the legal procedures in criminal courts of medical jurisprudence including the inquest procedures the difficulties encountered in detecting crime medical evidence rules for presenting evidence and the powers of criminal courts the post mortem examination concerns the external and internal examination of the deceased to establish identity if unknown to determine time and cause of death under the written orders of the court an exhumation can take place when suspicions of foul play arises after death the author discusses death in terms of somatic physical or molecular tissues and cells dying individually after vital organs have stopped functioning the book also describes in detail the primary modes of dying namely syncope asphyxia and coma the book explains the medico legal aspects of injuries pregnancy legitimacy rape miscarriage infanticide and insanity this book is intended for medical students but can also benefit students in law courses and practitioners of legal jurisprudence and of the medical sciences

unlike some other reproductions of classic texts 1 we have not used ocr optical character recognition as this leads to bad quality books with introduced typos 2 in books where there are images such as portraits maps sketches etc we have endeavoured to keep the quality of these images so they represent accurately the original artefact although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy

excerpt from d104 book of medical jurisprudence and toxicology this d104 book has been written more particularly to meet the wants of students of legal medicine the author is aware that the field has already been occupied by able and popular treatises on medical jurisprudence well known to the professions of medicine and law but an experience of over twenty years as a public teacher of this branch of science has convinced him that students in both these professions who desire to acquire a knowledge of medical jurisprudence are too often deterred from their purpose by being confronted by the ponderous works of recognized masters extending to three and even six large octavo volumes to avoid the above objection the author of the present work has endeavored to condense into a handy volume all the essentials of the science and to present the various topics in a simple and familiar style giving greater prominence of course to those of the greatest practical importance the subject of toxicology occupies as was proper a considerable space and has been carefully

prepared special attention being bestowed upon the most important poisons such as arsenic strychnine opium prussic acid etc about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
